

6 Reasons to Choose Intel vPro® Over the Competition

Get the most for your business by getting the most out of your PCs. With 17+ years of experience, Intel vPro® is the business computing foundation that makes PCs professional-grade. Make the right choice for your business. That means choosing Intel vPro®.

1

Raising the bar on revolutionary business performance

By taking the innovative new architecture introduced in 12th Gen and improving upon it, 13th Gen Intel® Core™ processors push the limits of multitasking performance to deliver real-world business computing.

2

Delivering better protections, right out of the box

Hardware-based security features help you stay ahead of continuously evolving threats such as ransomware, cryptojacking or software supply chain attacks.

3

Empowering you and your team to do more

Support users and access devices from virtually anywhere, so you can maintain comprehensive control of your technology, with modern remote management.

4

Lifecycle management made easier

Deploy, manage and retire devices with confidence, knowing PCs built on Intel vPro® let you manage your fleet throughout their lifecycle.

5

Device choice and innovation leadership

Users can get the performance and form factors they need in an integrated solution with the broadest choice of designs and support for multiple operating systems.

6

Built-in sustainability benefits for business

For over two decades, Intel has set aggressive greenhouse gas reduction goals and was named America's #1 Most Sustainable Company by Barron's in 2022.¹

Intel vPro® is the unrivaled foundation for real-world business computing²

When you invest in Intel vPro®, you get

- ✓ Dedicated products for **business and worker productivity**
- ✓ **Wide choice** from local and global suppliers
- ✓ Proven **platform** over 16 years with >120 million units installed
- ✓ Largest ecosystem of **business software, solutions and services**
- ✓ The benefits of **openness** with full stack protections rooted at the hardware level so your business is **better protected**
- ✓ Support for cost-effective **PC refresh**, on a predictable cadence

How Mature Is Your PC Purchasing Strategy?

The process of buying and managing PCs has become more complex, as hybrid work requires high-performing PCs that have enhanced capability in security, manageability, and reliability. How is your organization navigating the transition to hybrid work? Take the Intel Performance and Stability Assessment to find out.
